

Become Us

[Tamia](#)

Oh yeah

I'm feelin' this one right here
Don't know, I don't know what's goin' on?
Somethin's happened, I just don't feel the same at all
When you touch me, I just have to close my eyes
Each time you hug me, feel it's happening inside
And I, I'm about to say
What's always been forbidden between us
Baby, somethings about to happen
Tell me you cannot feel us falling?
You and I are about to become us
Feels like, feels like I've been going crazy for your lovin'
And even though we're only friends, I need much more than
So much more of you than what you have been givin'
Feel it's happening inside
And I, I'm about to say
What's always been forbidden between us
Baby, somethings about to happen
Tell me you cannot feel us falling?
You and I are about to become us
We could become one, babe
So much more in love
And I love you, baby
I trust you, babe, with my heart
Baby, somethings about to happen
Tell me you cannot feel us falling?
Baby, somethings about to happen
Tell me you cannot feel us falling?
Baby, somethings about to happen
Tell me you cannot feel us falling?
Baby, somethings about to happen
Tell me you cannot feel us falling?
We're about to become us
'Bout to become us
We're about to become us
'Bout to become us
