

Think About Me

Eternal

By: Michelle Lewis

Think about, think about me (oh)

 Think about, think about me

 (Think about me, babe)

 Think about, think about me (oh)

 Think about, think about me

 Think about, think about me

 Think about, think about

 I wanna be loved like everyone else

 I wanna be noticed for being myself

 I can't exist on once in a while

Waiting around and around was never my style

 You play your games perpetually

 Never tell me enough

 How much you love me

 Boy you should know I need more this time

That I'll be the only woman to stay on your mind

 You should think about me

 Every minute or two

 You should think about me

 As much as I think of you

 (Now and then)

Now and then doesn't do me any good

 Think about me like you should

 I want you to call me

 (How many times?)

 At least ten times a day

 Send lots of letters when you go away

I'm never demanding with presents or gifts

 Just think about me that is all that I ask

 You should think about me

 Every minute or two

 You should think about me

 As much as I think of you

 (Now and then)

Now and then doesn't do me any good

 Think about me like you should

 Appreciation

 (Isn't something I take lightly)

I take lightly
(Tell it like it is, girl)
(There's nothing I like better than when you surprise me)
You surprise me
(Consideration, imagination)
'Cause you worship, worship the ground beneath my feet
Oh, think about me
Oh, think about me
(Like you should) [ad lib to fade]
