

# Pass You By

## Boyz II Men

She was like nothin' I'd ever known  
Her eyes shine like diamonds in a field of snow  
Man, that destiny led her to me  
Made her feel that life was now complete  
A thousand days have passed and nights gone by  
You can see the glow slowly fadin' from her eyes  
Though she denies her pain and her dismay  
Know I said this to her anyway  
Don't have to stay with someone that makes you cry  
You'll end up killing all the love you have inside  
Can't hope to see the sun if you don't open your eyes  
Girl don't let real love pass you by  
Ooh, ohh, no  
Don't let real love pass you by  
I know you are nervous but take it from me  
'Cause you deserve so much more than you receive  
Listen to your heart and let it show  
Don't hold on to your pain just let it go, let it go  
Don't have to stay with someone that makes you cry  
You'll end up killing all the love you have inside  
Can't hope to see the sun if you don't open your eyes  
Girl, don't let real love pass you by  
Don't have to stay with someone that makes you cry  
You'll end up killing all the love you have inside  
Can't hope to see the sun if you don't open your eyes  
Girl, don't let real love pass you by  
Oh yeah  
Girl, don't let real love pass you by  
You can find a love you need if you set your heart free  
Girl, don't have to stay with someone that makes you cry  
Don't be discouraged baby, don't let real love pass you by  
Don't have to stay with someone that makes you cry  
You'll end up killing all the love you have inside  
Can't hope to see the sun if you don't open your eyes  
Girl, don't let real love pass you by  
Don't have to stay with someone that makes you cry  
You'll end up killing all the love you have inside  
Can't hope to see the sun if you don't open your eyes  
Girl, don't let real love pass you by  
Don't you let nothing  
Don't let no one take you away from love  
(Don't let real love pass you by)  
You'll see I know, I know, I know  
You'll be alright  
(Don't let real love pass you by)  
You just can believe in love, in love, in love, in love  
(Don't let real love pass you by)  
Oh yeah

(Don't let real love pass you by)  
Ooh, yeah  
(Don't let real love pass you by)  
Don't let, don't let, don't let, don't let  
Don't let, don't let, don't let, don't let  
(Don't let real love pass you by)  
Ohh
