Lunatics

The Kite Machine

Lunatics, gonna pull a weight out off orbit
Funny how when you're in the spotlight it matters
You and I gotta get a grip for the others
Up a sleeve could've got a lot for the money

When I scan the figures
When I get too high
When I pull the trigger
Then I wonder why
When the floor's a bubble
And it's sinking in
Could it be too subtle or
I told you

That I don't mean to push your buttons
Hate to say I told you so
That I don't mean to push your buttons
Hate to say I told you so
Yeah, I don't mean to push your buttons
Hate to say I told you so
I don't mean to push your buttons
But I've got to go

Yeah

Maybe I should agree and start turning tables
Wait it out or just the manner of which I am being portrayed
Better lie gotta put it right if I wanna
Stay alive gotta get the data to barter

When I scan the figures
When I get too high
When I pull the trigger
Then I wonder why
When the floor's a bubble
And it's sinking in
Could it be too subtle or
I told you

That I don't mean to push your buttons

Hate to say I told you so
That I don't mean to push your buttons
Hate to say I told you so
Yeah, I don't mean to push your buttons
Hate to say I told you so
That I don't mean to push your buttons
But I've got to go

I'm trying hard to illustrate innocence in this crime
Bending over backwards to reiterate I'm fine
I'm trying hard to illustrate innocence in this crime
But I'm bending over backwards to bend over backwards
