

# Alive

## The Dirty Youth

See the girl, eyes are wide  
So naive, dead inside  
Would you cry for her  
Would you take her pain away  
Would you die for her

Would you brighten up her dayNo more regrets, no more regrets

I can't forgetThese could be the best days  
We're having it all our way  
Saying things we must say  
To feel so alive  
Its brighter than the sunlight  
Dancing like its all right  
Celebrating this night  
To feel so alive

I feel so aliveI don't know how it feels to be so insecure

That you take out your problems on cocaine and beer  
You say to yourself that your really okay  
It's killing me now just to see you this way  
Now I think to myself is this fake is this real  
All the diamonds and rubies and lies you conceal  
Are you lost in yourself, are you feeling confused

Reality sinks and you know you've been usedNo more regrets, no more regrets

I can't forgetThese could be the best days  
We're having it all our way  
Saying things we must say  
To feel so alive  
Its brighter than the sunlight  
Dancing like its all right  
Celebrating this night  
To feel so alive

I'm feellng so aliveSo, I've gotta tell you to, wrap your arms around your soul

Wake up, now

Break out, now

You will lose yourself and everythingNo more regrets, no more regrets

I can't forgetThese could be the best days  
We're having it all our way  
Saying things we must say  
To feel so alive  
Its brighter than the sunlight

Dancing like its all right  
Celebrating this night  
To feel so alive  
I'm feeling so aliveI'm feeling so alive  
I feel so alive  
I'm feeling so alive  
I feel so alive
