

# Great Release

## LCD Soundsystem

And it feels like it won't come on  
And it takes like you're full of love  
Still the time never to pay on  
Still the time never to pay on And it feels like I'm coming home  
And it's still like a merry cow  
And it feels like it's coming home  
And it feels like it's full of love  
Still in time is the great release  
Something dying will be a great release
