

A Skull Full of Maggots

Cannibal Corpse

Lying there cold after a torturous death
Your life ended fast you took your last breath
Dead in a grave, your final place
The maggots infest your disfigured face
Puss through your veins takes the place of blood
Decay sets in, bones begin to crack
Thrown six feet down left to rot
Brains oozing black down the side of your broken neck
Skull full of maggots
They enter your tomb maggots
beginning to feast maggots
Crawling on you maggots now they eat you maggots
Rotting maggots maggots infesting your corpse maggots
Parasites of the dead maggots now dwell in your head
Lying there cold after a torturous death
Your life ended fast you took your last breath
Dead in a grave, your final place
The maggots infest your disfigured face
Puss through your veins takes the place of blood
Decay sets in, bones begin to crack
Thrown six feet down left to rot
Brains oozing black down the side of your broken neck
