

People Talking

Aubrie Sellers

Sometimes I feel like I'm the new kid in town
That never had a chance to settle down
Are you here to stay where'd you get those shoes
Why you walking around with new city blues
People talking never make a sound
My ears only burn when they're not around
Go on believing what am I to do
It's only people talking it's not true
Sometimes I feel like an old familiar tune
When's the record gonna change
Cause it's never gonna change too soon
Why are you still here
There's no one that you haven't been through
Your welcome is warning your day
Is well past due
People talking never make a sound
My ears only burn when they're not around
Go on believing what am I to do
It's only people talking it's not true
And I'd like to say that it don't bother me at all
Sometimes I wish I felt like I'm alone
People talking never make a sound
My ears only burn when they're not around
Go on believing what am I to do
It's only people talking it's not true
