## Juliet

I wanted to love someone  
Doesn't matter who  
I just wanted to love someone  
Somebody like you Two times the pain  
Every go around  
And what's to gain With half a heart gone  
With half my will gone?  
Leave the lonely idle on  
Save myself for the only one Morning light is calling  
The fuchsia sky is on  
And when the rain's falling  
I've come undone I had a dream  
A fairy tale for two  
Can I find grace? Tucked away for tomorrow  
'Cause no one else will do  
Holding out for the golden  
The golden hours with you I have a dream  
Time keep me true  
I'll turn the page Just wanted to love someone  
Doesn't matter who  
Just wanted to love someone  
Somebody like you
