I Know Better Now

Picture House

(Browne/Ralston)
Come over here, turn on the lights
'Cos I almost saw your face
And from over here you look pretty nice
And I wondered if I could be leaving on a ship
That won't be coming back this trip
But then I realised I almost saw the lights
Don't you see that I know better now
Don't you see that I know better now
Out in the sun you're out in the lights
And you're crazy 'bout the boy
But he's got a friend that you never liked
And you think you could be leaving on the next big ship
Won't be coming back this trip
Then I realised almost saw the lights
Don't you see that I know better now
Don't you see that I know better now
Don't you see that I know better now
Don't you see that I know better now
huh
I wondered if I could be leaving on a ship
That won't be coming back this trip
But then I realised I almost saw the lights
Don't you see that I know better now
Don't you see that I know better now
Don't you see that I know better now
Don't you see that I know better now
Don't you see that
well I know better now
