

Moments Like These

The Amazing

Hush, you always present the evil way
Not tonight I was hoping
Fallen leaves that I get over
I never felt that tensionAll say the stories really felt like you could be
Center all the dreams you kept
But all you got was to seeSit around I wait for every heart
To give me comfort
I never got the words, they are left unsaid
Felt like I was choking
All say the stories really felt like you could be
Center all the dreams you kept
But all you got was meAnd I know everything else like that
And I know what everyone wants so badBlowing winds present the evil way
At times you were hoping
Fallen leaves that you
You never felt attentionHow many days and waking nights
It all would be the same
It is moments like these you wish
Your stick would beat that flameSit around I wait for every heart
To give you comfort
You never got the words, they are left unsaid
Felt like you were choking
Horrid days and waking nights
It all would be the same
It is moments like these you wish
Your stick would beat that flame
