Strangest Things

Longwave

Starts with a burst, a little word, the sound's
So loud and high, it can't be heard and that's all
You can be sure of, so don't say a wordCaught up underneath just before the flood
A fight you've have and lost, a hundred to one
But that's all you ever wanted, so we'll be goodThe strangest things are happening to me
I've been away all the time, in the end
It plain enough to see, it'll carry away, carry awayIt's not in the marrow but it's in the bone
You grind it down to nothing until it leaves you whole
But that's all you can be sure off, so don't let goAnd when it gets in your head, you stay for weeks
Fallin' out of bed, talking in your sleep but I can't feel a thing
I don't understand you when you speakThe strangest things are happening to me
I've been away all the time, in the end
It's plain enough to see, it'll carry away, carry away
