

# Memorial Fields

Yuck

I left my life in maple shade  
Took that away from dreams we've madeAs evening glows  
As darkness glows  
As darkness grows  
Into the night.I wanna go back to the end  
And maybe we can start againAs evening glows  
As darkness glows  
As darkness grows  
Into the night.  
How magical  
I'll later take  
The end of time  
To make you mine
