Special Effects

Dean Friedman

By dean friedmanSpecial effects drive me right up the wall.
I can't reason at all with your special effects.Special effects, oh, they turn me around,
I can't locate the ground with your special effects.You turn your power on me I can hardly see.
My senses reel and whirl,
I never want to be without yourSpecial effects, oh, they take my breath away,
I can't tell night from day with your special effects,Special effects. special effects. special effects
