

Can't Let Go

Anathema

On and on
On and on
On and on
I can't let go
On and on
I can't let go If you are not there
I'm coming down this road again
If you I love
Then where are you?
I'm coming down, down again
Cause I can't let go
On and on
I can't let go
On and on If you are not there
I'm coming down this road again
If you I love
Then where are you?
I'm coming down, down again
If you I love
Then where are you?
There's something wrong, wrong again Oh, I can't let go
On and on
I just can't let go
On and on
If you are not there
I'm coming down this road again
If you I love you
Then where are you
I'm coming down, down again
If you I love you
Then where are you?
I'm coming down this road again
