My Place

Bobby Brown

MY PLACE
(Written by Bobby Brown, Tim Kelley, and Bob Robinson)Tell me, would it be, baby
Tell me, baby(Would it be outta place for you and I to get together)
(At my place, just you and me)
(Would it be outta place for us to get to know each other)
(At my place, just you and me)Sitting alone, just wondering what it'll take to get with you
Girl, I don't mind, just tell me what to do
I swear if you don't like it, I don't mean to be too forward
But I need you with me(Would it be outta place for you and I to get together)
(At my place, just you and me)
(Would it be outta place for us to get to know each other)
(At my place, just you and me)See, I'll run away, girl if you tell me that I'm just not your type
Then I'm gone, bye bye baby
'Cause I wanna be with you the whole night through
All you gotta do is trust in me, baby pleaseI promise you'll get the best of me
And I promise you'll get all of meYou know, all you gotta do is, uh
Give me a chance and I promise you won't cry no more
So what should I do?(Would it be outta place for you and I to get together)
(And my place, just you and me)
(Would it be outta place for us to get to know each other)
(And my place, just you and me)(Would it be outta place for you and I to get together)
(And my place, just you and me)
(Would it be outta place for us to get to know each other)
(And my place, just you and me)I promise you'll get the best of me
And I promise you'll get all of me(Would it be outta place for you and I to get together)
(And my place, just you and me)
(Would it be outta place for us to get to know each other)
(And my place, just you and me)(Would it be outta place for you and I to get together)
(And my place, just you and me)
(Would it be outta place for us to get to know each other)
(And my place, just you and me)...
