

# 773 Love

## Jeremih

[Verse]

Let me be your stimulation  
I could be your occupation  
Work you like a 9 to 5  
Plus put in that over time  
Careful what you doin' to me  
'Cause half the things I do for you  
I hope that you'll do for me  
And when the light's low pop bottle  
With a goose please  
Twist off a couple loose sleeves  
(Seduce me)  
Girl welcome to my bed come here  
You thought it would be easy-sy-sy-sy

[Hook]

Sexy I should get to know  
Been thinking lately girl we can get more physical  
Won't you call 773, 779 love,oh  
Then panty draws is all I need  
Falling off of your body  
Won't you call 773, 779 love,oh

[Verse]

Better now than even later  
Let me be your innovator  
Feels alright when i'm right with you  
They lyin' if you not the truth  
Miss co-star, let's proceed  
You got that vibe, that third degree  
You're this high, you're supposed to be  
And when the light's low pop bottle  
With a goose please  
Twist off a couple loose sleeves  
(Seduce me)  
And welcome to my bed  
Baby won't you come here  
Thought it would be easy-sy-sy-sy

[Hook]

Sexy I should get to know  
Been thinking lately girl we can get more physical

Won't you call 773, 779 love,oh  
Then plenty drawers is all I need  
Falling off of your body  
Won't you call 773, 779 love,oh

[Bridge]

Okay girl I'm not him put it down, down  
Okay girl I'm not him put it down, down  
Okay girl I'm not him put it down, down  
'Cause I know in you's a little freak let it out, out

[Hook]

Sexy I should get to know  
Been thinking lately girl we can get more physical  
Won't you call 773, 779 love,oh  
Then plenty drawers is all I need  
Falling off of your body  
Won't you call 773, 779 love,oh
