

Talking Snake

Iggy Pop

Look what you have done
Ruined every single one
See what fools they are
Jealous of a simple star
Feel the fore winds blow
Let the sword hang low, baby
Life's to take
Says, the talking snake
Everybody should be happy
Life's to take
Says, the talking snake
Everybody should be happy
To tell the sucking truth
Everybody's dreams get used
Twist me till I drip
Liquid of emotions ripped
Every hungry soul
Hides a hungry fool, baby
Life's to take
Says, the talking snake
Everybody should be happy
Life's to take
Says, the talking snake
Everybody should be happy
Feel the fore winds blow
Let the sword hang low, baby
Life's to take
Says, the talking snake
Everybody should be happy
Life's to take
Says, the talking snake
Everybody should be happy
Should be happy
Should be happy
