Genesis

Hot Tuna

Time's come for us to part
And think of living as it was.
Into the future we must cross...
Must cross.I'd like to go with you
And I'd like to go with you.You say I'm harder than a wall
A marble shaft about to fall.
I love you dearer than them all
Them all.So let me stay with you
So let me stay with you.And as we walked into the day
Sky's of blue have turned to gray.
I might have not been clear to say...
To say...I'd never look away
I'd never look away.And though I'd I'm feeling you inside
My life is rolling with the tide.
I'd like to see it be an open ride...Along with you
Going along with you.The time we'd borrowed from ourselves
Can't stay within a vaulted cell.
And living turns into a lender's well...So let me come with you
And let me come with you.And when we came out into view
And there I found myself with you.
When breathing felt like something new...
New...Along with you
Going along with you.
