

Freak Like Me

Macy Gray

Sorry, that I'm late
I been searchin' for something great
Something to fill me up, he said, "Join the club"
Then we made love till my body ached
Baby, when you have the time
I wanna tell you what is on my mind
I gotta get it off, 'cause it's so heavy
After what we did the other night
I wanna be with you for all my life
I am so glad you're a freak like me
Someone be a true one
See the last one made me cry
All the time my love, he said, "Join the club"
Then we make love till my emotions rise
My emotions rise
Baby when you have the time
I wanna tell you what is on my mind
I gotta get it off 'cause it's so heavy
After what we did the other night
I wanna be with you for all my life
I am so glad you're a freak like me
Love like I dream of, like they sing of in the beautiful song
Feeling it deep tonight and I'd rather die
Than be without it when the morning comes
You make me feel like my search is done
Baby when you have the time
I wanna tell you what is on my mind
I gotta get it off 'cause it's so heavy
After what we did the other night
I wanna be with you for all my life
I'm so glad you're a freak like me
Baby when you have the time
I wanna tell you what is on my mind
I gotta get it off 'cause it's so heavy
After what we did the other night
I wanna be with you for all my life
I'm so glad you're a freak like me
