

Poveglia (feat. De:Tune)

Degs

Try listening to my friends
They told me Bro, it ain't worth it
You know how these things turn out in the end
 But baby, I can't pretend
 It's all my fault, I'm returning
 It ain't so easy just to knock it on the head
 When I'm feeling like I'm falling into you
 Because just this one time
 You're making me unwind
 And see the truth
I never really wanted this, I gave you my excuse
 You're taking the control
 I'm watching it unfold
 But I'm feeling good
 Well it was 8:21 on a saturday, right
Had no plans to go out, just my zoot for the night
 Oh, another message came up, ayy
 Blowing up my line you're straight up, ayy
You tell me you got the kush let's blaze up, ayy
You're home all on your own, no makeup, ayy
 So persuasive, persuasive, woo
 Your techniques are creative
 Even when I'm trying to be evasive
'Cause confidence's gone, yeah you got it in droves and I'm
 Back in the whip with just my socks on my toes
 Cause I can't wait, oh
 Yeah yeah, I can't wait
 When I'm feeling like I'm falling into you
 Because just this one time
 You're making me unwind
 And see the truth
I never really wanted this, I gave you my excuse
 You're taking the control
 I'm watching it unfold
 But I'm feeling good
 When I'm feeling like I'm falling into you
 Because just this one time
 You're making me unwind
 And see the truth

I never really wanted this, I gave you my excuse
You're taking the control
I'm watching it unfold
But I'm feeling good
I pull up in your eye
Even though we know it's the worst thing that we could do
We've been lost for a while
History repeats and everytime it's like we push through
Abandoning sense and balancing friends
But can you just call this love
Girl you set presendence and its self-evident
We're spectating the story now
One more game, yeah
One more game
When I'm feeling like I'm falling into you
Because just this one time
You're making me unwind
And see the truth
I never really wanted this, I gave you my excuse
You're taking the control
I'm watching it unfold
But I'm feeling good
