

# Daggers Out!

## Magneta Lane

don't you know?  
don't you know the blood now  
has charm now and somehow  
you'll find it time to change just wait now  
hold on now  
learn the truth now  
he's shot now  
and somehow  
we'll all just disappear we're dancing  
they're dancing  
hanging on to your damn head  
and they're telling you  
things that you would rather hear instead  
we're dancing  
they're dancing  
he's dancing alive  
but in time we'll all just go to sleep can't you find?  
can't you find the right time - the right time to change your face? protect her  
protect her  
your arms  
as daggers  
five daggers  
have disappeared  
your hands we're dancing  
they're dancing  
and they're telling things you would rather hear instead  
they're dancing  
we're dancing  
he's dancing alive  
but in time we'll all just go to sleep
