Motivator

Cyhi Da Prynce

I can make you feel so good
Hold me by the arm
I can take your speckles of sweetness
And turn them into stars
I can make your dreams so real
Just think what we could do
Oh I could be your messiah
And I'll take you higher
And maybe I won't stop till I do
'cos I'm your motivator
I'm behind everything you do
Yes I'm your motivator
If your heart is thumping
I can give you something
Feel me with the crack of my whip.
I will be your inspiration

Movin' in your soul
I'll be your little bit of muscle
And move and take control
I can be just simple persuasion
So take me as your guide
But when your mind is cooking
Remember who's looking
'cos baby I'm that something inside
'cos I'm your motivator
I'm behind everything you do
Yes I'm your motivator
If your head is reeling
Get off on this feeling
Hold me now and shoot from the hip.
Do do do
You give something something I need.
