

# Trenches

## Pop Evil

No time to hide  
I'm alive on the inside  
Breaking up my mind on the front lines  
When I survive, when I survive another day  
This great divide  
Side by side on the inside  
Breaking up our minds on the front lines  
Never again, never again will I be denied  
Here I come 'Cause here I come I've waited all my life to get out of the trenches  
I'm ready to fight for what I believe you can steal from me  
I won't take this  
Gonna fill these trenches and stand up Wake up, I won't give up  
'Cause here I come, here I come Back and forth, stuck in a hole, damage control  
Digging for rhymes on a secondhand cell phone  
When I survive, when I survive another year  
Still month to month  
Paying my dues on the inside  
Breaking up my mind on the outside  
Never again, never again will I be denied  
Here I come 'Cause here I come I've waited all my life to get out of the trenches  
I'm ready to fight for what I believe you can steal from me  
I won't take this  
Gonna fill these trenches and stand up Wake up, I won't give up  
'Cause here I come, here I come I've waited all my life to get out of the trenches  
I'm ready to fight for what I believe you can steal from me  
I won't take this  
Gonna fill these trenches and stand up Wake up, I won't give up  
'Cause here I come, here I come Stand up  
Wake up  
I won't give up  
'Cause here I come, here I come
