

# Eternally

## Fred Locks & The Creation Steppers

If I could ask you things unspoken  
    Give to you all my honesty  
If I could show you any token  
    Of the love welling up in me  
I'd let you see what you mean to me  
If you could hear me, I'd sing love songs  
    As you drift gently into sleep  
If you could see me, I'd blow you kisses  
    Let them cross the ocean blue and deep  
I wish you could see, what you mean to me  
    Eternally  
    When I had the chance  
    To share with you my days  
    All those precious tender moments  
    Well, I let them slip away  
    If I could touch you for a lifetime  
    You would know that I would love you true  
    Eternally, eternally, eternally  
    If I had one wish that could be answered  
        I'd undo all that I have done  
        I know, I took it all for granted  
    Thought I'd have you for all my days to come  
        Here with me eternally, eternally
