

Control?

MDFMK

Fight the power
And the power will fight back
You're only as good
As the system you hack
If you become a problem
You will be replaced
Banned, shut down
ErasedThe world is capsized
Gone erratic
Constitutional rights have
Dissolved into static
The truth is based
On misinformation
Reality is only
A hallucinationThe revolution will be synthesized
The revolution will be synthesizedAnother decade
Gone terribly wrong
Effectively affecting
Generations to come
We only buy into
What we can sell
We only want to protect you
From yourselfThe more you waste
For the media hype
We're busy creating
Another stereotype
Amending the story
To keep it tact
And make sure our vision
Accommodates factDo you know who owns and controls
The station you're watching?
Does the truth you know rely on its funding?
Does it matter?
Does it matter?The revolution will be synthesized
The revolution will be synthesized
The revolution will be synthesizedCorporate wars
Versus plastic celebrity
Competing for headlines
Repels foreign realty

Ulterior motives
In a shroud secrecy
The holy grail
Is market supremacy Killing machines
Blood destruction and mayhem
Can we pity the victims
If we don't even know them?
If anything goes wrong
We'll bring them all in
Cause we're not gonna stray
From the ancient hand Do you know!
Who owns and controls!
The station you're watching?!
Does the truth you know!
Rely on its funding?! The revolution will be synthesized!
The revolution will be synthesized!
