Wasn't Yesterday Great

Gilby Clarke

I sold my stones 45's
And traded in my 'stang
I lost it all in a time warp
My generation boomerangedYesterday, was it great? Stayed in bed
In my hangover clothes I couldn't get up for the day
Wasn't yesterday great? Dropping out of the machine
Walk the nuclear slide, I got a headache from
The strobe lights an acid overdriveYesterday, was it great? Stayed in bed
In my hangover clothes I couldn't get up for the day
Wasn't yesterday great? Put a quarter in the pay phone
I buy all the lies, if forever is a moment
I'd sell tomorrow nightYesterday, was it great? Stayed in bed
In my hangover clothes I couldn't get up for the day
Wasn't yesterday great?
Wasn't, wasn't yesterday great?
