

Shades Of Grey

Delilah

Thought it was love, memories scope the lies
That lead me far from here, here, far from here
Trying hard to silence all you say but
You stay in my ear, you stay in my ear
Because everything you didn't want
Became a part of me
All the things you asked for
I just could not see
Everything you are, everything you are
Everything you are, left a broken heartbeat
Through the darkest shades of grey
I see beauty in the rain
I find myself, I find myself
Go and... go and free walk alone in the night
Through the darkest shades of grey
I see beauty in the rain
... light, call out to a stranger and I
But it was youuuuuuuu, youuuuuuuu
Sleeping alone I cried out, for you in my dream
No matter how hard I try to change you
You won't change with me
Because everything you didn't want
Became a part of me
All the things you asked for
I just could not see

Everything you are, everything you are
Everything you are, left a broken heartbeat
Through the darkest shades of grey
I see beauty in the rain
I find myself, I find myself
Go and... go and free walk alone in the night
Through the darkest shades of grey
I see beauty in the rain
... light, call out to a stranger and I
So let me run away, run away now
I got to run away, run away
I'm gonna run away, run away
So let me run away, run away now

Watch me run away, run away now
I'm gonna run away, run away
So watch me run away, run away now
Through the darkest shades of grey
I see beauty in the rain
I find myself, I find myself
Go and... go and free walk alone in the night
Through the darkest shades of grey
I see beauty in the rain
... light, call out to a stranger and I
But it was youuuuuuu, youuuuuuu
