Got A Feeling

Herman's Hermits

I got a feeling coming on
Life is taking way too long
I?ll see you when I?m home
See a madman on the wall
A burning church and human flaw,
But you leave them alone,
I got a feeling that comes around
The dogs of war I put them down
I hear them cry and beg
I gave a poor man a dime or two
He saved my soul with gratitude
And gave his life yes you did
God really knows us all

God really knows us all
And God really knows us all
Please I know it?s too late for my eyes to open
Now I see the door closing, I need more time for it?s over
I got a feeling coming on (feeling coming on)
I got a feeling coming on (feeling coming on)
I got a feeling coming on (feeling coming on)
I got a feeling coming on (feeling coming on)
I got a feeling coming on (feeling coming on)
So please I know it?s too late for my eyes to open
I feel the door closing and I see myself getting older
I got a feeling ill never be free until it?s over
I got a feeling coming on life is taking way too long
I?ll see you when I?m home
