Roller

Br'er Rabbit

Oh where is she woman
She's only here for the sun
It's now you'll discover
She's only here for the fun
And who will move over
Sweet talker choosin' her side
And it's then, it's all over
She' just along for the rideShe' s a roller
She's just a roller
Bet she'll roll her life awayOne town is just like another
One man will just never do
Don't turn around
When she calls out your name
She's gonna break you in twoBut she's a roller
She's just a roller
Rolling time come todayOne town is just like another
One man will just never, never do
Don't turn around
When she calls out your name
She's gonna snap you in two
