

# While We Slept

Jesse Harris

No, I would never say  
You were not here  
Just yesterday  
It seems so near I know we'll never be  
Back there again  
But can't believe  
That it could end But while we slept  
Life changed us  
And time went by And though where we once stood  
Is still the same  
It does no good  
To call your name 'Cause while we slept  
Life changed us  
And time went by  
Time went by It won't stop now  
It won't stop now  
It won't stop now  
It won't stop now
