One Last Time

Elise Estrada

It'd be easier if there was someone else
I might understand if we had a fight
And we're lying here but you're somewhere else
I don't wanna see what you don't feel
So just turn out the light
I know you tried but your heart ain't gonna fake it
If it ain't love, there's no way I can take it
So exposed, I might as well be naked
And I've been praying but I just can't make you love me
And it burns my heart that you don't feel the flame
No, I just can't make you love me
So hold me like you mean it
And I'll pretend to feel it one last time
Don't say a word, baby, please don't speak
Just hold me close and let me make believe
I don't wanna hurt till the morning break
Just pretend it's not the end
To spend one last time with me
I know you tried but your heart ain't gonna fake it
If it ain't love, there's no way I can take it
So exposed, I might as well be naked
And I've been praying but I just can't make you love me
And it burns my heart that you don't feel the flame
No, I just can't make you love me
So hold me like you mean it
And I'll pretend to feel it one last time
I know it's no one's fault but it's just not meant for you
And you can't make your heart feel the way I feel for you
It's not right to keep me hanging on
Just give me one more night before we both move on
But I just can't make you love me
And it burns my heart that you don't feel the flame
No, I just can't make you love me
So hold me like you mean it and I'll pretend you feel it
Well, I just can't make you love me
And it burns my heart that you don't feel the flame
No, I just can't make you love me
So hold me like you mean it and I'll pretend to feel it
One last time, ho
