

Closer Than This (Xaphoon Jones Remix)

St. Lucia

Off the ground headin' for another take
I remember all the sounds you used to make
But I keep my down despite the animals on your face
How many times have I said I've got a feeling we will never get closer than this
I can't imagine there's a way to get closer than this Catch up with the other kids
Even falling far behind
Starlight in the middle of the Ocean
Opens up my heart tonight I've got a feeling we will never get closer than this
I can't imagine there's a way to get closer than this
I've got a feeling we will never get closer than this
I can't imagine there's a way to get closer than this And I keep on pushin'
Keep on pushin'
Keep on pushin' on
Oh we keep on pushin'
Keep on pushin'
Keep on pushin' on I've got a feeling we will never get closer than this
I can't imagine there's a way to get closer than this
I've got a feeling we will never get closer than this
I can't imagine there's a way to get closer than this And we keep on pushin'
Keep on pushin'
Keep on pushin' on
And we keep on pushin'
Keep on pushin'
Keep on pushin' on
