

It's Like Soul Man

Guided By Voices

I never liked you until I
Took a good look at myself
And when I saw you there
I saw the best part of me was yourself It's like soul man
It's like soul man I never liked you until I
Took a good look at myself
When I saw you there
I saw the best part of me was yourself It's like soul man
It's like soul man
It's like soul man
