'Juniper'

Y La Bamba

down down down down down
down down down down down

My temple has been compromised
I was meant to rise
Six feet above my bed

I am a sea
(That feeds the wind)
I am the rain
(That trickles in)
I am the cause that is dangerous

This is our loss
This is our loss

My garments have been the sacrifice
To justify what was
Our daily bread

I am a sea
(That feeds the wind)
I am the rain
(That trickles in)
I am the cause that is dangerous

This is our loss

I am the earth
that spins your love

Don't look so concerned
it was what it was

You are the sound
of my beating heart
Was lost but now is found

This is our loss

This is our loss

Down down down down down
Down down down down down

This is our loss
