

Cool Water

Isobel Campbell & Mark Lanegan

Cool water won't bring it down
Oh it's hard, my backyard is full of hand me downs
Make your pick, take it quick while the going's good
And you are, thank the stars like I knew you couldCool water, you're out of grace
Take a cloth, wipe it off, yeah, death's on your face
Take this thing that we sing, make it something good
Taking care if you dare and I knew you would
And I knew you wouldCool water won't bring it down
Love is when you're right here, you're my favorite clown
I'll depend, my right hand and we're chained and bound
Feels so good like it should, let me bring you 'round
Let me bring you 'round
Let me bring you 'round, let me bring you 'round
Let me bring you 'round
