

Enemy

Blue Stahli

Lost in the time
In the way
Gone but not forgotten New secret crimes
To repay
Now the walls have fallen
And so it's now or never I'm breathing in
I'm breathing out
I'll cut the ties that hold me down I'm breathing in
I'm breathing out
I'll be the enemy Caught quicksand grip
Pull me in
Whisper faith in sickness Soon kill the myth
I'll begin
Be the first to witness
And so it's now or never I'm breathing in
I'm breathing out
I'll cut the ties that hold me down I'm breathing in
I'm breathing out
I'll be the enemy I'm breathing in
I'm breathing out
I'll cut the ties that hold me down I'm breathing in
I'm breathing out I'm breathing in
I'm breathing out
I'll be the enemy
