

This Time

Chris Isaak

I know i let you down the last time.
You said then there'd be no next time.
One more chance is all I'm asking.
Is it so hard to be forgiven? If only i could make you see
How much your love could mean to me.
This time
This time Cause i know the world can turn against you.
But this time I'm gonna be there for you. I know i said I'd change the last time.
But it won't be the same this time. If only i could make you see,
How much your love is changing me.
If only we could start again.
This time
This time If only i could make you see.
What one more chance could mean to me.
If only we could start again.
This time. This time
This time
This time I know it's gotta work out this time.
