This Time

Chris Isaak

I know i let you down the last time.
You said then there'd be no next time.
One more chance is all I'm asking.
Is it so hard to be forgiven?If only i could make you see
How much your love could mean to me.

This time

This timeCause i know the world can turn against you.

But this time I'm gonna be there for you.I know i said I'd change the last time.

But it won't be the same this time.If only i could make you see,

How much your love is changing me.

If only we could start again.

This time

This timeIf only i could make you see. What one more chance could mean to me.

If only we could start again.

This time. This time

This time

This timeI know it's gotta work out this time.
