

# Very First Breath (feat. Irfane)

## Hudson Mohawke

Bring us back, bring us back  
Bring us back, bring us back  
To our very first breath, very first breath  
Bring us back, bring us back  
Bring us back, bring us back  
To our very first breath, very first breath  
Nothing's been the same since we've been through  
Walking in the rain, calling your name in my sleep  
Never thought you'd run so deep  
In the corners of my mind you creep  
Practicing my aim deep within you  
Poison in my veins, all cause of the things that you do  
At first I thought it couldn't be true  
Never thought I would plead you to  
Hold me, tight in your thoughts  
Bring us back, bring us back  
Bring us back, bring us back  
To the second we met  
You told me, we would get lost  
Bring us back, bring us back  
Bring us back, bring us back  
To our very first breath  
Somewhere in the mist I can see you  
Hanging on a kiss, dreaming of a time gone by  
When we would let each other die  
Wake up and we would touch the sky  
If my only wish ever came true  
I'd hang on to your lips  
Like that shining drop of golden sweat  
How could I ever forget to  
Hold you, tight in my thoughts  
Bring us back, bring us back  
To the second we met  
I told you we would get caught  
Bring us back, bring us back  
Bring us back, bring us back  
To our very first breath  
Bring us back, bring us back  
Bring us back, bring us back  
To our very first breath, very first breath  
Bring us back, bring us back

Bring us back, bring us back  
To our very first breath, bring us back  
Bring us back, bring us back No my only wish never came true  
Walking in the rain, sitting on this train all alone
