# Alone With You

## The Derailers

I think that I'll unplug the phone tonight
Turn off the TV, turn down the lights
I don't wanna join the crowd, I'm not in the mood
I just wanna be alone with youI don't feel like goin' anywhere
If I'm missin' something, I don't care
I don't feel like hangin' out
There's nothin' I wanna do
I just wanna be alone with youIt's been so long since we've been alone
I wanna make the most of it
Savor every little bit we canTonight I think I'll give the car a rest
If they wonder where we are, let 'em guess
In you arms and out of reach
I don't wanna leave this room
I just wanna be alone with you
Yeah, I just wanna be alone with you
