

# Alone With You

## The Derailers

I think that I'll unplug the phone tonight  
Turn off the TV, turn down the lights  
I don't wanna join the crowd, I'm not in the mood  
I just wanna be alone with you I don't feel like goin' anywhere  
If I'm missin' something, I don't care  
I don't feel like hangin' out  
There's nothin' I wanna do  
I just wanna be alone with you It's been so long since we've been alone  
I wanna make the most of it  
Savor every little bit we can Tonight I think I'll give the car a rest  
If they wonder where we are, let 'em guess  
In you arms and out of reach  
I don't wanna leave this room  
I just wanna be alone with you  
Yeah, I just wanna be alone with you
