

# Dance Like Nobody's Watching

Amy Diamond

Oooh oooh oooh  
Oooh oooh oooh oooh oooh  
Oooh  
Oooh oooh oooh  
Oooh oooh oooh oooh oooh  
OoohHow come we feel so alone  
An endless road we're so used to travel  
But in the rearview mirror  
Things get clearer  
We start to know when it's too late  
Let go and make your own fateAnd just dance like nobody's watching  
Close your eyes, roll the dice, let go for a moment  
And just dance like nobody's watching  
Make everyday count, get up when you're down  
And just dance, come on and just danceSo long we lived beneath the veil  
So afraid to make a wrong turn  
But in the rearview mirror  
Things get clearer  
We start to know when it's too late  
Why be good when we can be greatAnd just dance like nobody's watching  
Close your eyes, roll the dice, let go for a moment  
And just dance like nobody's watching  
Make everyday count, get up when you're down  
And just dance, come on and just danceOooh oooh oooh  
Oooh oooh oooh oooh oooh  
Oooh  
Oooh oooh oooh  
oooh oooh oooh oooh oooh  
OoohAnd just dance like nobody's watching  
Close your eyes, roll the dice, let go for a moment  
And just dance like nobody's watching  
Make everyday count, get up when you're down  
And just dance, come on and just danceWoah, come on and just dance  
Come on and just dance
