Brother

Toad the Wet Sprocket

I find my brother in there
Here in my heart
I find my brother in there
Holdin' my arms
I love youAnd if you're feelin' too quiet now
There are no words to show you how
I love youDad often feel like the Prodigal Son
Take all I need giving back none
Our beauty shows in such different ways
You're like the light behind the fog so soft
But still you burn my eyes awayI find my brother in there
Here in my heart
I find my brother in there
Holdin' my arms
I love youAnd if you're feelin' too quiet now
There are no words to show you how
I love youSo much has changed
So much has happened these years
Still find you are waiting here
We have a bond that nothing can change
And still I find a peace of mind
Whenever I hear your nameI find my brother in there
Here in my heart
I find my brother in there
Holdin' my arms
I love youAnd if you feelin' too quiet now
There are no words to show you how
I love you, I love you
I, I love you, love you
