

# Cheap An' Nasty

## Whitesnake

Come on baby  
I get so confused  
But, my heart knows you're one of a kind  
Leather an' lace, an angels face  
Riding on a one track mind  
You're fully loaded with cruise control  
My four wheels rock with your back seat roll You're cheap an' nasty  
All you want to do is give it up, give it up  
Cheap an' nasty  
Come on an' do the dirty with me I get so excited, babe, when I'm invited  
To ride in your limousine  
You drive it every day, burn it every night  
I wonder how you keep it so clean  
Smooth accelerator, you get me so loose  
You keep your motor running till I run out of juice You're cheap an' nasty  
All you want to do is give it up, give it up  
Cheap an' nasty  
Come on an' do the dirty with me Cheap an' nasty  
I never knew it could be this way  
An' I never thought I'd ever complain  
But, gimme a second just to catch my breath  
Babe, before you do it again All the boys call your name  
Down the wishing well  
Baby, when you go  
You're like a cat out of hell You're cheap an' nasty  
All you want to do is give it up, give it up  
Cheap an' nasty  
All you want to do is give it up, give it up  
Cheap an' nasty  
All you want to do is give it up, give it up  
Cheap an' nasty  
Come on an' do the dirty with me Come on an' do the dirty  
Come on an' do the dirty  
Come on an' do the dirty with me  
Come on an' do the dirty with me
