A Simple Song

Deep Purple

Time, it does not matter
But time is all we have
To think about, think about
Road, it has no end
Crossroads every turn
So it goes, so it goes
Once you sang
A simple song
Got confused
Went on too long
Why does the promise fade
You lie on the bed you make
Stranger than fiction
Further from the truth
Beyond imagination

Those seeds have taken root"
Wild as a dream could be
From black and white
To blue and red
Golden circles
Flow above your head
Once you sang
A simple song
You got confused
And now it?s gone
Once you sang
A simple song
It all went wrong
Time, it does not matter
Time is all we have
