

Movie

LZ7

Bright Lights on a Friday night,
And I find myself with you,
Went out and tore it down,
It was us that made it through,
Cause we ran these streets,
Yeah we own this town,
And we broke our moves,
Just to shut it all down,
And the stars in the sky,
And with no regret,
Yeah we built this dream,
As the end 'em plague,
You say,
Last night was a movie.
Last night was a movie.
Last night was a movie.
Last night was a movie.
Last night was a movie.
Last night was a movie.
Last night was a movie.
Last night was a movie.Last night was a movie.
Last night was a movie.
Last night was a movie.You swear,
Last night was a movie.Last night was a movie.
The sun will rise on a new,
But I'm wrapped up in you.
Looking back at the forward graph and you always tell the truth,
In a frozen moment,
We capture time,
The kings and queens,
Follow just one line,
And my hands went up,
Cause you called my name,
And they break the wall,
In the end you say,Last night was a movie.
Last night was a movie.
Last night was a movie
Last night was a movie.
Last night was a movie.
Last night was a movie.

Last night was a movie.

Last night was a movie.Last night was a movie.

Last night was a movie.Last night was a movie.

Last night was a movie.

Last night was a movie.
