

# Fandango

## Christina Pluhar: L'Arpeggiata

You might find me in the Century Club  
Fresh kicks, fresh cut, pocket full of dubs  
Box of Altoids for my paranoid niggaz actin' foul  
Stop smokin' if you can't be proud Adult star night, not another bar fight  
Inglewood players actin' right in the spotlight  
Me, I'm righter than invisible set  
I'm visibly wet, slurrin' and I'm lookin' for my pet I pass to the massa with her whip on her, ask her  
If she sippin' wit'cha bird, if she not we move past her  
And I ain't hatin', I'm just diggin' ya ass, girl  
Is that the collagen shot, is that what'cha momma got? I'm so rugged, bullet wound in back  
Of the axe handle blunt force trauma kinda tuggin'  
And I ain't never been what the cat drug in  
Be real, Quik's to keep ya mean muggin' California clownin', bounce to sundown  
In the moonlight groovin', trippin' off the saloon fight  
We fandango, the next day hangover  
Got me feelin' like I hit a train with my Range Rover Feel free to lose your mind, let your brain go  
Fuck the tango, do the fandango  
Triple step, right left, then you let your dame go  
Spin around 'til you get a hangover Take your doo rag off, let your brain grow  
Fuck the tango, do the fandango  
Triple step, right left, then you let your man go  
Spin around 'til you get a hangover Watch me climb out the whip with the bird on my hip  
She wanna set it off in the club, don't trip  
We crack a bottle and all my fam take a sip  
Any haters wanna pop at the lip, we come equipped We get the paper and the savor the flavor  
But never forget about the haters who constantly imitate us  
Homey, we creators and players and rhyme sayers  
For layers of words, let me say it in terms that you can understand So clearly, you feelin', me, fam?  
She's on the floor 'cause of my homey, Quik man  
And she hits the mall but you don't really understand  
Yeah, I seen it before but now it's gettin' out of hand Mommy's diggin' for more and she's posin' for the cam  
Little beef got the dance floor slammed  
No tango, straight fandango  
Birds flock to us like heads to Kangols, c'mon Feel free to lose your mind, let your brain go  
Fuck the tango, do the fandango  
Triple step, right left, then you let your dame go  
Spin around 'til you get a hangover Take your doo rag off, let your brain grow  
Fuck the tango, do the fandango  
Triple step, right left, then you let your man go

Spin around 'til you get a hangover I'm a master in disguise, movin' swiftly to the thighs  
Move faster than me, then I recognize  
That I ain't really got nuttin' to hide  
But the bratwurst skinny girl second, fat girls first And Compton is still on my mind  
I remember when we used to get scared when they got behind us  
One-time sayin' they been tryin' to find us  
But they got the wrong niggaz, never mind us My tongue tumbles like I'm bumblebee stung  
Rip out the stinger, you keep talkin' shit I whip out the ringer  
How many times does it have to end right before 12:00 a.m?  
Why you packin' a Slim Jim? I gets down on the mic like I rode down on a bike  
Road rash, skin peelin' tonight  
The club ain't never crackin' 'til the haters be gone  
We need to build the eliminator hater light and put it on 'em Feel free to lose your mind, let your brain go  
Fuck the tango, do the fandango  
Triple step, right left, then you let your dame go  
Spin around 'til you get a hangover Take your doo rag off, let your brain grow  
Fuck the tango, do the fandango  
Triple step, right left, then you let your man go  
Spin around 'til you get a hangover
