

Soluble In Air

Mystery Jets

To be the hero of my own story
Forsee the events of my life
You're young not twice but once
If it's not trouble it's strife, it's strife

Bathe me in water vapour
Erase me to ashes with fire
Ground to dust in the dark earth
Oh let me be soluble in air, in air

If I really knew the truth
I'd probably turn back the clock
Better not to know too much too soon
Mankind is always in the dark, in the dark

Bathe me in water vapour
Erase me to ashes with fire
Ground to dust in the dark earth
Oh let me be soluble
Bathe me in water vapour
Erase me to ashes with fire
Ground to dust in the dark earth
Oh let me be soluble in air
