

No Rest for the Wicked

Cypress Hill

So many fools swingin' from my sack
Let's talk about the one who had my back!
Down in the west coast, so lemme kick it
To the motherfucker who calls himself "wicked"
No rest, no peace, no sleep
Doughboy rolling down the hill cause it's so steep
Jackson... lemme figure out the name
Jack cause you be stealing other niggas' game!
But I'm the wrong nigga you wanna fuck with
On my dick so hard, now ya wanna suck it!
Go on the head, gobble up the nuts
Get your lips ready & tear this motherfucker up!
Talk about Eazy, correct yourself
Cube, better step back & check yourself!Hmmm let's talk about this
First solo album on the east coast dick
The east coast niggas all showed ya love
Especially the one known as King Sun
He tried to warn us niggas aboutcha
But nobody would listen
Even began dissin'
Two albums later, you callin' my crew
All because ya wannabe Cypress Cube (No way, motherfucker!)
Shoulda known you couldn't hang in the alley
Good boy went to school out in the valley
Fuck it, lemme make this understood
Speakin' on mama's little Boy N the Hood
No Vaseline
Just a rope and a chair and gasoline (burning your ass up!)
Lench Mob is a friend of mine
But you talk about them niggas from behind
"You know what a chazzer is, O'Shea?
A motherfucking pig that don't fly straight"
Where ya gonna run to? Where ya gonna hide?
Taadow! Look at who's running outside!Natural Born Bullshitta
Lemme hit ya with a dose of reality when I get wit' ya
Your homie came knockin', he had to chain my suit
You put a pipe on your cover, even though you don't smoke Buddha
Let me take you down under on a plane
Where everybody was going insane

Took a look at the Real one: afro gone
The next morning, you didn't have yours on
How many ways will you bite my shit?
Would ya wet me or start throwing up a set?
Caution, when you enter the zone
Never used to bang 'til you heard the microphone
I got Cube melting in a Tray
Pulling up his card and fucking up his "good day"
Unoriginal rap veteran
The nigga who say he don't steal from his friends
Don't trust that nigga named O'Shea
Fuck him, and send him on his way!
